Кто-нибудь знает, что случилось с deeppaste?

Я пытаюсь закончить комнату сакуры <https://tryhackme.com/room/sakura>, сделанную osintdojo, и мне сложно найти onion-ссылку на deeppaste, у кого-нибудь есть идеи?

↑ 4 ↓ · 7

randomthad69 • 3 г. назад

Да, в этой комнате куча багов. Думаю, ее уже нет, потому что когда я закончил комнату 6 месяцев назад, у меня была проблема с удалением аккаунтов. Придется использовать wayback machine, чтобы пройти комнату, так как из-за новых правил сайта стало сложно найти ответы.

↑ 2 ↓

Да, я тоже это заметил, я даже не смог найти страницу в LinkedIn, которую просили в задании. Так что, наверное, стоит двигаться дальше.

Ты починил это, братан?

Неа... Я просто сдался. Рабочие OSINT ctfs найти очень сложно. T_T

Хотя, думаю, можно использовать подсказку...

↑ 2 ↓

[удалено] • 2 г. назад

Правильный способ играть в большинство OSINT - это играть так, как будто это только что появилось.

↑ 1 ↓

st4ndf0x • 3 г. назад

Кажется, deep paste больше не существует. Я закончил эту комнату на прошлых выходных, и та же проблема. В итоге пришлось использовать подсказку для этого вопроса, но, в общем-то, все то же самое.
